Subject: Charleston Chemical Leak MCHM

Mike,

Can you send me a copy of the complete set of data that has been collected by West Virginia? I am supporting EPA efforts here in the region and with the other federal agencies and with the OSCs on site. I would greatly appreciate it if can get someone there that can email the data to me. Bob Helverson is in Charleston working with FEMA and the WV Health folks, if the set is too big to email, if you can give it to him he can transfer it to me securely.

Thank you,

Stephen Jarvela
